Subject	Table	Page
I. The Pulp and Paper Industry in 1972		5
National significance	1	5
Production by provinces	2	5
Production ratios	3	5
Employees	4	5
Earnings	5	5
Pulpwood consumption, by provinces	6	6
Pulpwood consumption, by species	7	6
Shipments by products	8	6
Shipments by areas	9	7
Mill locations 1972	10	7
Pulp, paper and paper products exports 1972	11	8
II. Forests and Wood Supply		9
Pulpwood consumption by pulp and paper mills	12	9
Apparent pulpwood production	13	9
Pulpwood exports and imports	14	9
Forest Land	15	9
Forest volume	16	9
III. Pulp		10
Wood pulp production	17	10
Wood pulp annual capacity	18	10
Wood pulp exports, by grades	19	11
Wood pulp exports, by areas	20	11
Sulphate pulp exports, by areas	21	11
Dissolving and special alpha pulps (sulphite and sulphate)	22	12
Sulphite pulp, paper grades	23	12
Sulphate pulp, paper grades	24	12
Mechanical pulp	25	13
Wood pulp imports	26	13
Sources of U.S. pulp supply	27	14
Average value per ton of U.S. pulp imports from Canada	28	14
Consumption in Canada of wood pulp for paper, paperboard, and other board production, by kinds	29	14
Consumption in Canada of wood pulp for paper, paperboard, and other board production, by sources	30	15
IV. Newsprint		16
Newsprint production	31	16
Newsprint capacity	32	16
Newsprint shipments	33	16
Newsprint exports by areas	34	16
Value of newsprint production and exports	35	17
Value of newsprint and total pulp and paper production	36	17
Sources of U.S. newsprint supply	37	17
U.S. prices and price indexes	38	17
U.S. newsprint industry	39	18
U.S. newsprint consumption and stocks	40	18
Consumption by larger newspapers	41	18
V. Other Paper and Paperboard		19
Paperboard production	42	19
Production, other papers and boards	43	19
Exports of paper (except newsprint) and paperboard, tonnage	44	20
Exports of paper (except newsprint) and paperboard, value	45	20
Exports of paper (except newsprint) and paperboard, by areas	46	20
Exports of paper products	47	21
Imports of paper and paperboard, and paper goods	48	21
Other paper and paperboard annual productive capacity	49	21
VI. National Significance		22
Pulp and paper production and the national income	50	22
Pulp and paper exports and Canadian trade	51	22
Growth of the industry	52	22
Principal Canadian exports	53	22
Capital and repair expenditures	54	23
Ten leading Canadian manufacturing industries 1970	55	23
Principal statistics by provinces, 1971	56	24
Canadian consumption of paper and paperboard	57	24
Employees and wages	58	25
Capital and employees	59	25
Payrolls and weekly earnings in important industries	60	25
Operations and mills 1972	61	25
Principal statistics of the paper converting industries	62	25
Car loadings	63	26
Summary of shipments of goods of own manufacture	64	26
Price Indexes	65	26

Subject	Table	Page
VII. World Figures		27
World production and consumption of wood pulp	66	27
World production of wood pulp, by grades	67	28
World forestry data	68	28
World exports of wood pulp, by countries	69	28
World production and consumption of newsprint	70	29
World exports of newsprint	71	30

Notes to the Tables

These Reference Tables are published annually as a statistical review of the Canadian pulp and paper industry, its growth and development, its place in the Canadian economy, and its position in the great world industry of which it forms so significant a part.

For some products, the figures in the Tables differ somewhat from those in the monthly Statistical Bulletin, also published by the Canadian Pulp and Paper Association. One of the reasons is that Statistics Canada grade classifications are slightly different, in a few instances, from those of the Canadian Pulp and Paper Association. In addition, the monthly Statistical Bulletin does not include statistics for several companies which are not members of CPPA. These companies account for some two per cent of the total pulp and paper output in Canada.

All quantities in the Tables are in short tons of 2,000 pounds and, for wood pulp, are expressed on an air-dry basis.

For the preparation of these tables grateful acknowledgement is made to L. J. Pouliot, formerly chief of the Forestry Section of Statistics Canada, Ottawa.

Copies of Reference Tables, within a reasonable number, are available from
Canadian
Pulp and Paper
Association,
2300 Sun Life Building,
Montreal 110, P.Q.

27th edition, September 1973

1. The Pulp and Paper Industry in 1972

1		
National significance	1972	1971
	\$'000	\$'000
Gross production of pulp and paper mills ¹	2,926,030 ²	2,832,267
Gross national product	102,935,000 ³	93,094,000
Capital expenditures of pulp and paper mills	392,400	506,200
Pulp and paper exports	2,196,442	2,057,932
Total domestic exports	19,500,135	17,575,386
Ratio of pulp and paper exports to total domestic exports	11.25%	11.71%
Pulp and paper exports to United States	1,460,873	1,440,410
Total domestic exports to United States	13,540,423	11,681,556
Ratio of pulp and paper exports to United States to total domestic exports to United States	10.79%	12.33%

1. Value of shipments of goods of own manufacture.
2. Canadian Pulp and Paper Association estimate.
3. Preliminary.

1. Including shipments to subsidiary and affiliated companies.

2. Statistics Canada classification includes some grades not classed as newsprint by the Newsprint Division of the Canadian Pulp and Paper Association.

3. As much of the pulp shipped to Canadian customers and Canadian affiliated mills was utilized in the manufacture of paper and board, there is some duplication in this figure.

4. Preliminary.

1970	17,896	6,485
1971	16,479	7,706
1972	16,528 ³	7,671 ³

1. Whole logs and bolts. Quantity calculated on the basis of consumption plus exports minus imports. This takes no account of inventory changes and includes wood originally intended for use as sawlogs but diverted to pulp mills.

2. Consists chiefly of sawmill chips but also includes slabs, edgings, reject lumber, veneer cores and other residue.

3. Preliminary.

Source: Calculated by Canadian Pulp and Paper Association from Statistics Canada data shown in Tables 12 and 14.

15

Forest Land¹

	'000 Acres
Reserved forest land ²	17,034
Not allocated to wood production (Crown)	344,462
Allocated to wood production (Crown)	370,646
Allocated to wood production (private)	64,204
Total forest land	796,346
Non forest land	1,467,700
Water (rivers and lakes)	200,846
Total, land and water	2,464,892

1. Land capable of producing stands of trees 4 inches DBH and larger on 10% or more of the area. Shelter belts and units of forest 5 acres or less and scattered are excluded.

2. Land in parks, game refuges, water conservation areas and nature preserves where, by legislation, wood production is not the primary use.

32

Newsprint capacity	Annual capacity
	'000 Tons
1972	10,118
1973	10,194
1974	10,400
1975	10,460

Capacity is shown as at the beginning of each year plus allowances for new machines from the date they are expected to operate. It is possible for production to exceed capacity partly because no allowance is made for improvements in equipment during the year.

1970 ¹	3,396	3,310	3,162	141	3,303
1971 ¹	3,472	3,296	3,127	161	3,288
1972 ¹	3,476	3,422	3,315	122	3,437

These figures are compiled from U.S. mill reports and shipments to overseas show only exports direct from mills. They do not include tonnage delivered to U.S. buyers and subsequently resold for export, such as tonnage being included in shipments to U.S.A. Exports as reported by U.S. Department of Commerce are thus higher than mill reports; in 1972 the Department showed exports of 145,000 tons versus 122,000 tons reported by the mills.

1. Capacity for the years 1968 on have been adjusted in order to represent more realistically maximum possible production.

1972	7,569	10,271	98.4	544	746

Note: U.S. total consumption is based on consumption reported by the American Newspaper Publishers Association group. For each year the percentage of total U.S. supply taken by this group is assumed to represent the percentage of total consumption consumed by the group. Total U.S. consumption is obtained by extending ANPA consumption by this percentage to 100. Total consumers' stocks at the beginning of each year plus supplies received less total consumption equals stocks at the end of the year.

1. End of each year.

Note: In the past, the basis and classification upon which exports of paper other than newsprint have been compiled have been modified from time to time. Consequently, only figures covering recent years are included in this and Tables 45 and 46. Again, the tonnage figures for certain paper products exported are not available. The dollar figures covering these exports will be found in Table 47.

1. Coated paper (except machine coated), asphalt shingles and roofing and building paper, special industrial paper, wet machine board, mutilated newsprint, beater stock, rejects and waste paper, n.e.s.; also special industrial paper prior to 1972, now counted with wrapping paper.

1971 ²	2,835	93,094
1972 ²	3,063 ³	102,935 ⁴

1. The gross national product is the market value of all goods and services produced in Canada.
2. All principal statistics of manufactures (i.e. number of establishments, number of employees, total salaries and wages paid, cost of fuel, electricity and materials used, selling value of factory shipments and value added by manufacture or net value) shown in this publication for the years 1957 to 1960 have been revised by the Dominion Bureau of Statistics on the basis of the new Standard Industrial Classification adopted as of 1st January 1960 and of the new Establishment (reporting unit) Concept adopted as of 1st January 1961. Because of these changes, principal statistics for years prior to 1957 are not fully comparable with those for the years that follow. See also footnote 6, Table 64.

Principal statistics of the paper converting industries

	1971	1970
Number of establishments	500	496
Number of employees	43,312	40,699
	\$'000	\$'000
Salaries and wages paid	293,698	271,718
Cost of fuel and electricity	10,701	9,632
Cost of materials used	659,803	618,324
Selling value of factory shipments	1,168,584	1,079,686
Value added by manufacture	526,846	446,000

Note: These figures cover only converted paper products produced in the Folding Boxes and Set-up Boxes, Corrugated Boxes, Paper Bag, Miscellaneous Paper, and Asphalt Roofing industries. In addition, some 20 paper-mills have converting plants whose operations are included in the Pulp and Paper industry, and there are also several plants in the Printing Trades and other industries which make paper boxes and other converted paper commodities as secondary products.

1. Rigid insulating (homogeneous or laminated) softboard for all purposes and all types of hardboard, as reported by establishments classified as pulp and paper mills.
2. Such as packaged toilet paper, paper towels and napkins, paper bags, gummed tape, etc.
3. Not made from wood pulp, paper or paperboard.
4. Such as newsprint and kraft side-runs, vanillin, acid liquors, steam sold, etc.
5. On materials and products owned by others.
6. Unadjusted value of shipments and work done, representing the sum of the items shown.

Since 1957 questions covering value of sales taxes, excise duties and outward transportation charges which could not be deducted from individual commodity items, as required, have been added to Census of Industry questionnaires; the answers have resulted in the adjusted values shown in Table 50 (q.v.) and elsewhere. The unadjusted values are more comparable to the values shown for production prior to 1956, which obviously comprised similar undeducted taxes, duties and charges.
